Please find below and/or attached an Office communication concerning this application or proceeding.

DETAILED ACTION

1. This is in response to the September 16, 2005 order by the Board of Patent Appeals and Interferences (BPAI), returning the appealed application to the Examiner for formal matters. The following corrective actions or responses have been taken.

a. The amendment of September 9, 2002 has been completely entered.

b. The information disclosure statement (IDS) filed July 30, 2002, fails to comply with 37 CFR 1.98(a)(1), which requires the following: (1) a list of all patents, publications, applications, or other information submitted for consideration by the Office; (2) U.S. patents and U.S. patent application publications listed in a section separately from citations of other documents; (3) the application number of the application in which the information disclosure statement is being submitted on each page of the list; (4) a column that provides a blank space next to each document to be considered, for the examiner's initials; and (5) a heading that clearly indicates that the list is an information disclosure statement. The information disclosure statement has been placed in the application file, but the information referred to therein has not been considered.

The Examiner notes that no Form 1449 was included in this submission.

However, the references noted on the IDS were also listed on the 1449 accompanying the Information Disclosure Statement (Papers Number 4 and 5) filed on June 18, 2002, which was considered and initialed by the Examiner and returned to the Applicant with Paper Number 7.

c. The Information Disclosure Statements filed on June 27, 2003 and October 6, 2003 have been considered and initialed copies of the 1449s are attached herein.

d. The Declaration of James Bollinger, filed on February 22, 2002, did not contain any statement or information pertaining to the patentability of the claims – only a statement by Mr. Bollinger that he drafted the specification and claims of the parent application and assisted in the drafting of the current application. The Examiner did not consider this to be materially pertinent to the examination of the present application.

e. The Examiner has completed a Supplemental Examiner's Answer with the correct headings for the "Summary of Claimed Subject Matter", "Claims Appendix", "Evidence Relied Upon", and "Related Proceedings Appendix" sections. No changes have been made to the "Grounds of Rejection" or "Responses to Argument" sections.
